

Preventing Litter

Our entertaining and fun presentation teaches total recycling and litter prevention. This program saves money by stopping litter before it starts.

(416) 321-0633

What to expect:

Alex King and Sheila White combine their considerable teaching and musical talents to make recycling education fun and interesting.

They engage the crowd in songs and "Blue Box or Not?" - a special game that involves eager volunteers.

Audience members will also help to write lyrics for an action song about litter, which they then join in performing. They learn how proper waste management reduces litter.

There's nothing else like this program for building awareness and tackling the root cause of the littering problem.

It's a great program!

- **Suitable for all ages, the program's goal is to educate to reduce and prevent littering.**
- **Totally interactive! Original action songs, sing-along songs and an educational game reinforce the idea of litter abatement.**
- **For schools, communities and workplaces.**
- **Provides memorable lessons in Blue Box and other recycling education using the most up-to-date information appropriate to the jurisdiction.**
- **Accommodates audiences of any size.**
- **Perfect for Earth Week or any time of year!**
- **Average duration is 30 minutes. Timing is tailored to the target audience. May include discussion.**

Help Prevent Littering

The Litter Prevention Program informs and entertains, inspires participants and leaves a lasting impact.

Littering is a major environmental problem created solely by people. Four out of ten people litter and most of them are over the age of 14. Since people are entirely responsible for littering, they also have the power to stop it. The Litter Prevention Program, accredited for use within the Toronto District School Board, is designed to motivate people of all ages to do the right thing and never litter. It works. Young people remember the great music, the key lines and core messages for years and put those lessons into practice for life. The Litter Prevention Program is welcomed enthusiastically wherever it plays. We recommend it for everybody. We show how easy preventing litter can be. We work with partners to bring the Litter Prevention Program to as many schools as possible. Become our partner today in the fight against litter. Please use our website as your online resource with our compliments.
